

1st Dec 2009

# Manchester Interdisciplinary Biocentre

## *Perspectives in*

## Systems and Synthetic Biology

9.30 Welcome address

9.40 **MIB** *Systems Biology Research* - introduced by **Pedro Mendes**

10.10 **Duncan McHale (AstraZeneca)** *title tbc*

10.40 **Merlin Goldman (TSB)** *Commercial opportunities of systems and synthetic biology*

**10.50 Coffee and Posters**

11.20 **Malcolm Skingle (GSK)** *Will systems biology & academia drive pharma to greater productivity?*

11.50 **Training for Industry**

12.00 **MIB** *Synthetic biology research* - introduced by **John McCarthy**

**12.30 Lunch and Posters**

13.20 **Industrial Funding** *Catherine Coates (EPSRC), Ian Kimber (MRC) and Prabhat Sakya (BBSRC)*

13.50 **Cory Brouwer (Pfizer)** *title tbc*

14.20 **Hagan Bayley (RSC)** *What's the point of speculative academic research?*

14.40 **Sascha Losko (Biomax)** *Knowledge management for synthetic and systems biology*

**15.00 Coffee/Posters/1-1 meetings**

15.30 **Colin Harrison (CIKTN)** *The Industrial Biotechnology Innovation and Growth Team- a prompt for more effective collaboration across the Sector*

16.00 **Markus Fischer (IASB)** *Synthetic Biology - programmed self-organization as a new industrial paradigm*

16.20 **Hans-Peter Meyer (Lonza)** *Reflection on the future role of synthetic biology in chemistry*

16.50 **Discussion session and Overview**

**17.20 Wine Reception**
